

Miniature VSAT Service

World-Class Communications Anywhere in the World™

Harris CapRock's marine miniature VSAT service is engineered specifically for compact size and simple installation onboard maritime vessels and offshore rigs. The fully managed solution – part of Harris CapRock's FieldAccess service for the offshore market – enables remote site communications for corporate applications and crew morale, keeping offshore teams reliably connected to the rest of the world.

BENEFITS

- > Provides flexibility with compact and portable antenna design
- > Saves time and money with quick setup
- > Reduces costs of satellite air-time versus mobile satellite services
