

Fair Access Policy Schedule 3 FieldAccess™

Each level of the FieldAccess Service is identified by a maximum data rate and includes specific fair access terms with regard to the amount of upstream (from the Customer remote site to the Harris CapRock network) throughput and the amount of downstream (from the Harris CapRock network to the Customer remote site) throughput. The chart below identifies the maximum monthly throughput ("Throughput Limits") allowed under this Policy for each service level in either throughput direction.

Fair Access Policy Throughput Limits				
Maximum Rate	128 kbps	256kbps	384 kbps	512 kbps
Gbytes/month/site	3 Gbytes	6 Gbytes	9 Gbytes	12 Gbytes
